## NO KICKERS AT THE DAM

### LITTLE RESPONSE TO HOWLAND'S AD

NEVERTHELESS THE WORK OF INSPECTION OF THE NUUANU RESERVOIR AND DAM IS GOING ON VIGOROUSLY—HEAVY RAINS SET BACK THE PUMPING OPERATIONS NECESSARY FOR AN EXAMINATION OF THE CORE FOUNDATION—PITS BEING DUG.

The privilege granted to the public by the Department of Public Works or the "stage play by the Department," as it was dubbed by ex-inspector Patterson was not taken advantage of this morning at the Nuuanu Dam. The public did not appear. It may have been the rain, or perhaps for the most part the people who have been making the most noise decided that after all they do not know enough about dam construction to engage in conversation with an expert on the subject and attempt to pick flaws for him, or it may be that the citizens of Honolulu have unlimited confidence in the ability of Mr. Kellogg to find all of the weak spots there, whatever the reason, the fact remains that the public did not appear at the dam this morning.

**THE INSPECTION PROGRESSING.**  
The actual work of inspecting the dam and all of the work on the side that is necessary thereto, is progressing rapidly. The work of determining the strength and safety of a dam situated as the Nuuanu dam is not a thing to be accomplished in a few hours or days. It may take weeks before Expert Kellogg is sufficiently well versed in the character of the work done on the Nuuanu dam to allow him to say that it is safe or unsafe.

Everything that Mr. Kellogg asks for it being given him and without a moment's hesitation. Whenever he suggests that he would like a trench here, a boring there, or a pit dug, the work of doing it is started without any time being lost.

At the place where ex-inspector Patterson says that the dam is more unsafe than in any other a pit is being dug, five feet square and sixty feet deep. It is in this spot that Patterson claims that the water is so profuse that at a depth of fifty feet a ten inch centrifugal pump will be unable to keep out the water. This morning the pit had reached a depth of 21 feet and

Patterson asked regarding the water immediately after his arrival at the dam. He expressed no surprise how ever when he learned that water was not in evidence as he stated he did not expect it until the pit was nearer fifty feet deep.

**WATER HINDERS WORK.**  
Expert Kellogg was unable to examine the core of the dam in the spot where Patterson claims the water comes through a fissure in the deck and which was plugged up with concrete and mud, on account of the water in the basin of the dam. Pumps here have been kept going continuously for some time but they failed to remove enough of the water which had risen on account of the heavy rains that fell in that section this morning. Some trouble was also had with the pump which was shut down for a short time. The water may be reduced by this evening so that the expert may see for himself the state of affairs at the bottom of the dam. Kellogg expressed some chagrin this morning in not being able to examine that spot today.

**WASTE PIPE EXAMINED.**  
It was toward the outlet through the embankment known as "waste" pipe that the expert next turned his attention. This "waste" pipe runs through the dam from the center of the basin above the structure and was put in so that the sediment which naturally washes down off of the hills might be drawn out from the dam and the water kept pure. Upon this pipe ex-inspector Patterson bases his second reason for pronouncing the dam unsafe.

The pipe in question is made of red wood and is 36 inches in diameter. It is surrounded with concrete and was built under the supervision of Patterson. Although he passed upon it at the time of its construction he now considers it unsafe. That the concrete contains not enough fine matter

### INSPECTORS WILL BE HERE A LONG TIME

REPORTED THAT THEY WILL ARRIVE HERE IN OCTOBER AND REMAIN UNTIL NEXT MARCH.

The Federal inspectors of hulls and boilers will make a much longer stay in these islands the next visit than has been customary in previous years. They will come here on October and remain until the following March. No reason especially, is assigned for such a prolonged stay in the islands but it is evident that the Department has decided to station inspectors here for a longer time than formerly. It may even be the prelude to a policy to station inspectors permanently in the islands.

**STICKS TO YOUR RIBS.**

### WILL ROOSEVELT MAKE THE TRIP?

PRESIDENT EXPRESSED TO GOVERNOR CARTER HIS DESIRE TO VISIT THE ISLANDS.

"I can't tell what are the chances of President Roosevelt coming here," said Governor Carter this morning in answer to a question, "but there is certainly no harm in inviting him and that is what has been done, with assurances of a warm welcome from the people of the Territory if he comes. As to whether he will decide to come or not, of course we cannot guess."

The governor was asked if the President had ever expressed himself on the subject of visiting Hawaii, during any of the many talks Carter and Roosevelt have had. "He has expressed himself as wanting to visit the islands," said the governor.

**PLANTATION INCOME APPEALS.**

The Tax Appeal Court was in session this morning. Income tax appeals by several plantations were heard. On Saturday the court will hear the Rapid Transit case.

**CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.**

The great success of this preparation in the relief and cure of bowel complaints has brought it into almost universal use. It never fails, and when reduced with water and sweetened is pleasant to take. It is equally valuable for children and adults, and is the only remedy that will cure chronic diarrhoea. Every bottle is warranted. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

**RESUMED PRACTICE.**

George D. Gear has opened law offices in the rooms formerly occupied by Justice Hatch on Kaa'u manua street. Telephone Main 214.

**READY-TO-WEAR GARMENTS.**

We are showing natty Eton Suits from \$3.75 up. New Walking Skirts in latest shades of gray and navy blue, \$5.50 up. Shirt-waist suits in the latest styles, \$3.75 up. N. S. Sachs Dry Goods Co.

## POHEIM, DRINKHOUSE, O'GRADY

(Associated Press Cable to The Star.)

SAN FRANCISCO, July 11.—Mayor Schmitz has demanded the resignations of the Police Commissioners, charging them with using their offices to enforce their private business interests. Commissioners Pohelm, Drinkhouse and O'Grady have resigned. Commissioner Reagan is defiant.

### RAILROAD HEAVILY FINED

CHICAGO, July 11.—Judge Landis has sentenced the Chicago and Alton railroad to pay a fine of \$40,000 for allowing rebates.

### ADMIRAL ATTACKED

SEVASTOPOL, July 11.—Admiral Chavichin has been wounded by an assassin.

## OPEN AIR TREATMENT AT LEAHI

THE NEW PAVILION AT THE LEAHI HOME IS ABOUT COMPLETED AND THE OPEN AIR TREATMENT OF CONSUMPTION WILL BEGIN AT ONCE—PATIENTS WILL LIVE IN THE OPEN AIR ALL THE TIME—SUNSHINE AND OXYGEN.

The open air treatment of consumption is to be adopted in Honolulu.

The new pavilion at the Leahi Home, which Dr. Sinclair asked for at the last annual meeting of the association is now about completed, and within a few days Dr. Sinclair will install his patients in it. It is located not far from the present tuberculosis ward. In effect it consists of a building without sides and much glass in the roof, designed to provide shelter, without interfering with sunlight or air. There are screens and shades to protect against extremes of sun and wind, but in general the design is not to interfere very much with either of these elements.

In this pavilion, those of the consumptive patients whom Dr. Sinclair thinks will be benefited by the open air treatment, will live day and night, sleeping and waking. They will get all the sunlight and fresh air they need, besides wholesome food, and all the other treatment which the modern methods have proscribed.

The open air treatment of consumptives is now everywhere regarded as the best possible treatment, and it has been adopted in many places. There has been much success in the treatment of consumption at the Leahi Home in the past, and it is hoped that still greater success will be achieved with the new open air pavilion.

### Counties Joining To-gether

MAUI AND OAHU COMBINE TO PRESS THE DELINQUENT TAXES MANDAMUS CASE.

The mandamus case of Treasurer Trent against Auditor Fisher which was to have been heard by Judge De Bolt this morning, is to be submitted directly to the Supreme Court, and the County of Maui will come in as assistant to the County of Oahu in the case. This was decided this morning at a conference in Judge De Bolt's chambers, by De Bolt, Deputy Attorney General Prosser and County Attorney Douthitt.

The suit is to collect the sum of \$17,000 of delinquent tax money. The County needs the money and is pressing for a decision of whether it has a right to it or not. By order of the Supervisors Douthitt brought a suit in the name of Trent to compel Fisher to issue a warrant for the money and

(Continued on Page Five).

### Hard Luck For County Politicians

THREATENED REDUCTION OF NUMBER OF POLICE AND ROAD DEPARTMENT EMPLOYEES.

The County of Oahu is beginning to make a lot of heavy cuts in monthly expenditures, and a lot of people will lose their jobs as a result. Supervisor Lucas, chairman of the road, bridges and parks committee, has been going the rounds trying to find places where money can be saved, in view of the fact that the county receipts have been greatly reduced. There will be reductions in the police, it is said, as well as in all the road gangs.

Lucas has also declared that the county will stop paying for prison lunas who are employed by the Territory to watch prisoners who work in the quarries. The work is for the benefit of the county and the county has been paying the lunas, though they

### WILL BE ON HAND TO GREET THE PRINCE

JOHN LANE GETTING A COMMITTEE TOGETHER TO GREET KUHIHO WHEN HE ARRIVES.

John Lane was busy today getting together a committee to greet Prince Kuhio as he steps from the Siberia on next Friday. The reception will be a rousing one and everything still be done that can be to let the delegate know that he is welcome home.

Lane has not yet secured the men who will act on his committee. They are being chosen about town at present. The committee will be a large one that will leave nothing undone to greet the Prince in the proper manner.

### EXAMINING BOOZE ON SALE

As a result of reports of bad liquor being sold, Food Commissioner Duncan has been examining samples of liquor, and this afternoon President Pinkham furnished the Board of Health with the results as given in Duncan's report. Another proposition contained in the report is that the Board take up the fight which the United States government has been making, against the sale of patent medicines which are essentially "boozes." The report of the President says:

"I desire to have you note the remarks of the Food Commissioner relative to malt and spirituous liquors

## INSURANCE SITUATION IN SAN FRANCISCO

THE DOLLAR FOR DOLLAR COMPANIES SEEM TO BE ARRANGING EVERYTHING SO AS TO MAKE ADJUSTMENTS AND PAY CLAIMS PROMPTLY—THE "SIX HIT" AND OTHER COMPANIES ARE STAND-PAT IN THE POSITION THEY HAVE TAKEN.

SAN FRANCISCO, July 11.—The committee of five adjusters appointed by the thirty-six dollar-for-dollar companies to pass final judgment on claims in which these companies are involved consists of A. R. Hosford of the Royal and Queen companies, W. N. Bament of the Home of New York, J. C. Corbet, W. B. Seaman of the Liverpool and London and Globe and E. C. Harrison of the Aetna. These adjusters are members of the committee of fifteen of the underwriters' adjusting bureau, which assigns committee losses for examination.

After the losses in which a number of the dollar-for-dollar companies are interested have been acted on by the

### WITHINGTON GETTING INTO THE LIME LIGHT

WELL KNOWN LAWYER IS REPORTED TO BE SEEKING A REPUBLICAN NOMINATION.

D. L. Withington is understood to be a candidate for nomination for the legislature on the Republican ticket—with a Civic Federation endorsement. Withington was a state senator in California and so has had legislative experience.

He is a lawyer; he is a Civic Federationist; he is a reformer; he is a member of the Republican party, and he is from San Diego.

Politics are beginning to hum.

### FRED HARRISON GETS THE JOB

The bids for the erection of the Nuuanu Crematory which were opened yesterday were discussed by the trustees of the Oahu Cemetery Association. Fred Harrison handed in the lowest bid and the contract was awarded to him.

Only two bids were handed in for the job. The other was made by John Walker.

Work on the crematory is to commence very soon. It will be carried forward as rapidly as possible until finished.

Harrison's bid was \$7,935 and Walker's was \$11,000. This does not include the furnaces for consuming the bodies. That will be bought abroad and will be brought here at a cost of about \$1,000.

bureau's sub-committees the reports will be sent to the committee of five for the last word as to whether they should be paid in full or whether the element of earthquake damage or inadequacy of proof makes them a proper subject for compromise. The committee of five will be fortified with all the evidence obtainable on behalf of the insurance companies as to earthquake damage, and it is believed that if this committee recommends the payment of a claim all of the dollar-for-dollar companies will abide by its findings.

It is said that the appointment of
